---Stop Taxpayer Funded Abortions!---

Call Congress and ask for a vote in Favor of H.R. 7, *The No Taxpayer Funding for Abortion Act.*

We need your help to stop taxpayer funded abortions. As you know, Obama Care has done an end-run around the long-standing Hyde Amendment which prohibits the use of taxpayer dollars for elective abortions. Obama Care has violated the decades of consensus amongst Democrats and Republicans by providing deceptive tax payer subsidies in the form of tax credits for health care plans which include abortion. Over one thousand exchange plans covered abortions according to the GAO Report. (read about report) **Abortion is not health care**. Abortion betrays women and violently takes the lives of our most innocent and defenseless tiny persons.

Contact Congress this week and ask for a vote for H.R. 7, *The No Taxpayer Funding for Abortion Act.* **We need to make our voice ring loud and clear from Maine to Washington, D.C.!** Please urge our members of Congress to vote in support of this bi-partisan legislation. Remember, poll after poll reports a majority of Americans oppose taxpayer funding for elective abortions in our nation AND overseas.

Senator Collins
Senator King
Congressman Poliquin
Congresswoman Pingree

A special thank you is extended to President Trump for *immediately* reinstating the pro-life Mexico City policy which defunds Planned Parenthood International and defunds American tax-payer funded abortions overseas. You may recall that fateful day on Jan. 23, 2009 in which President Obama over-rode the long-standing pro-life Mexico City Policy with the stroke of a pen when he first became President. President Trump has swiftly corrected that grave injustice on January 23, 2017.

Please act for the little ones! **A vote in favor of H.R. 7 will make the Hyde Amendment permanent federal law**. No taxpayer should be forced to pay for someone else's elective abortions. Act now. Save our precious unborn babies from the violence of abortion by prohibiting taxpayer funded abortions now and forever.
