## Oppose Taxpayer Funded Abortions!

### NO on LD 820

## Join Us for the Public Hearing on Wednesday, March 27

This is the time to stand up and be counted.

The extreme abortion lobby is attempting to force all taxpayers in Maine to fund *elective* abortions for women enrolled in Maine Care, regardless of their views on abortion. We must stop them in their tracks. [LD 820](#), An Act to Prevent Discrimination in Public and Private Insurance for Pregnant Women, would also force private insurers covering maternity services to also pay for *elective* abortions in Maine. Remember, Maine already follows the Hyde Amendment which prohibits federal tax dollars to be used for elective abortions, except to save the life of the mother, or in cases of rape or incest.
